

Course Title: **Stock Market Trading Course: Technical Analysis**

Duration: Two (2) days

Class Schedule: 9:00am to 4:00pm

Total Hours: 12 Hours

Description:

This stock market trading course is a two-part workshop that is made for individuals who are interested in becoming active stock market traders. It discusses and applies the technical tools that will guide the learner in his decision making , in order to maximize profits and minimize losses.

The learner will access charts online and analyze price actions based on the technical tools discussed. The workshop also includes trade plan development and portfolio management.

At the end of the course, the learner will have the benefit of continued mentorship online. The learner will also be provided with access to charts and trade set ups that he /she could use to trade the stock market.

Workshop Objectives:
